What is a Placement?

- Campus placement is the process conducted within educational institutes to provide jobs to students pursuing or in the stage of completing their education. Here, industries visit the colleges to select students based on capability, goals and role suitability.

- The major objective of campus placement is to identify talented and qualified professionals before they complete their education.

- Education and Training is provided to students by the colleges. The companies then pick the best candidates that match their requirements by conducting varied tests and interviews.
