Vocabulary

Compressed: (in this context) to make computer files, etc. smaller so that they use less space on a disk, etc.

Bandwidth: a range of frequencies within a given band, in particular that used for transmitting a signal.

Arbitrary: not seeming to be based on a reason, system or plan and sometimes seeming unfair. (For example: The choice of players for the team seemed completely arbitrary.)

Exponentially: (with reference to an increase) more and more rapidly.
