Here's What We Will Be Learning in this Presentation:

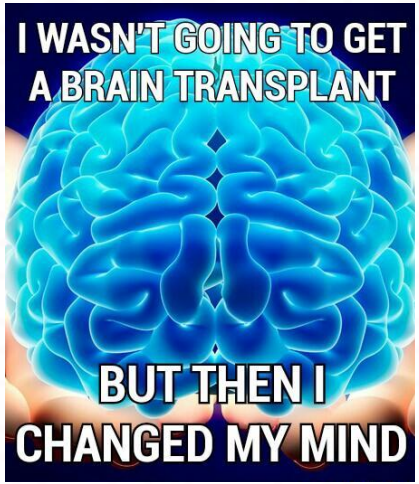

SUMMARY

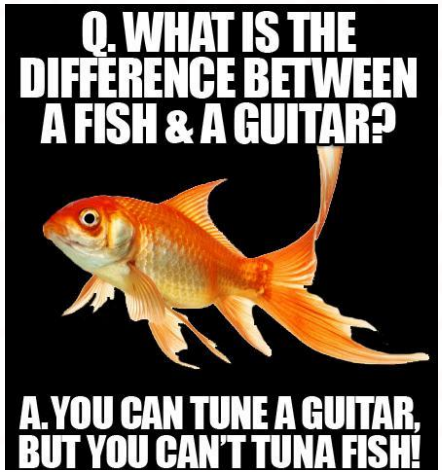

- How does the author create puns in writing?
- Types of puns.
- Exercises.

Pun Intended:

Pun intended means that the joke was a deliberate one. A pun is a play with a word, e.g. *"You can tune a guitar, but you can't tuna fish."* Sometimes authors accidentally do this; that is, they did not mean to play with a word, but a reader can interpret the author's work as a pun.
