

# Genetically Modified Crops

C1-C2

Module 6

Here's What We  
Will Be Learning  
in this  
Presentation:

# SUMMARY

- Genetically Modified Organisms and Crops.
- Benefits.
- Regulation.
- Controversy.
- Scientific Consensus.
- Exercises.

# Vocabulary

**Affiliated:** connected with or controlled by a group or organisation.

**Yield:** (in this context) to supply or produce something positive such as a profit, an amount of food or information.

**Spoilage:** the process in which food or other substances stop being good enough to eat or use, or the waste produced in this process.

**Herbicide:** a chemical that is used to destroy plants, especially weeds.
