Vocabulary

Ice rinks: an enclosed area of ice for skating, ice hockey, or curling.

Slope: a surface of which one end or side is at a higher level than another; a rising or falling surface.

Freestyle: a sports competition in which people taking part can use any style that they want. (often used as an adjective)

Sledge: a vehicle for travelling over snow and ice, with long narrow strips of wood or metal instead of wheels.

Puck: a hard flat rubber disc that is used as a ball in ice hockey.
