Vocabulary

Nocturnal: done, occurring, or active at night. For example: Some predatory animals are nocturnal.

Marsupial: a mammal of an order whose members are born incompletely developed and are typically carried and suckled in a pouch on the mother's belly. Marsupials are found chiefly in Australia and New Guinea, and also in America. For example: Kangaroos are a type of marsupial.

Glee: great delight, especially from one's own good fortune or another's misfortune. For example: The children shouted out with glee at the sight of candy.
