# Vocabulary

**Gizmo**: a gadget, especially one whose name the speaker does not know or cannot recall.
**Heart failure**: a chronic condition in which the heart doesn't pump blood as well as it should.
**Mortality**: the state of being subject to death
**Glaucoma**: A condition of increased pressure within the eyeball, causing gradual loss of sight.
**Ocular**: Of or connected with the eyes or vision.
**Epilepsy**: A neurological disorder marked by sudden recurrent episodes of sensory disturbance, loss of consciousness, or convulsions, associated with abnormal electrical activity in the brain.
**Subdermal**: below the skin.
**Semiconductors**: A semiconductor is a substance used in electronics whose ability to conduct electricity increases with greater heat.
