Vocabulary

To land: to get or achieve something good, especially in a way that seems easy or unexpected.

Hurdle: a problem that you have to deal with before you can make progress.

Mastery: complete control of something.

Yardstick: a fact or standard by which you can judge the success or value of something.

Simulation: a model of a set of problems or events that can be used to teach someone how to do something, or the process of making such a model.

Ubiquitous: present, appearing, or found everywhere.
