Vocabulary

Pathbreaking: pioneering; innovative.

Precursor: something that happened or existed before another thing, especially if it either developed into it or had an influence on it.

Ecosystem: all the living things in an area and the way they affect each other and the environment.

Prosthesis: an artificial body part, such as an arm, foot, or tooth, that replaces a missing part.

Congenital: a congenital disease or condition exists at or from birth.

Optimism: the quality of being full of hope and emphasizing the good parts of a situation, or a belief that something good will happen.
