

## **Alternative Healing**

B1-B2 Module 8

© Albert-Learning

Here's What We Will Be Learning in this Presentation:

## Summary

- Difference between conventional and alternative medicine.
- Glimpse of Some Alternative Healing Techniques.
- Exercises.

## Vocabulary

**Stimulate**: raise levels of physiological or nervous activity in (the body or any biological system).

**Herb**: any plant with leaves, seeds, or flowers used for flavoring, food, medicine, or perfume.

**Conventional:** (in this context) traditional and ordinary.

**Mainstream:** considered normal, and having or using ideas, beliefs, etc. that are accepted by most people.
