

# How Will Travel Be Different In The Future?

C1-C2

Module 3

Here's What We  
Will Be Learning  
in this  
Presentation:

# Summary

- ❑ How Transportation will Change in the Future?
- ❑ A Glimpse of Transportation Modes in the Next Decades.
- ❑ Today's Next-Gen Driverless Cars-Good Or Bad?
- ❑ Exercises.

# Vocabulary

**Teleport:** (In this context) (especially in science fiction) transport or be transported across space and distance instantly. For example: Life would be much easier if we could simply teleport ourselves instead of wasting time travelling.

**Pod:** (In this context) a detachable or self-contained unit on an aircraft, spacecraft, vehicle, or vessel, having a particular function. For example: Travelling in auto-driven pods will be the future of transportation.

**Sleek:** (Of an object) having an elegant, streamlined shape or design. For example: The design of the latest model is very sleek.

**Levitation:** the action of rising or causing something to rise and hover in the air, typically by means of supposed magical powers. For example: The most popular trick of all magicians is levitation.
