# Introduction

An annual general meeting (AGM) is a meeting of the general membership of an organization. AGMs are meant to display your company's operations in the best possible manner. It's also a great opportunity to really engage with your audience and hopefully inspire new potential investors or donors.

During an AGM you will have to talk about things that may not be very exciting to the listeners. In many cases, your presentation is likely to be an annual report in its essence. Nonetheless, that doesn't mean your powerpoint slides should be standard-looking. In this presentation, we will take a look at some ways to **grasp** your audience's attention.
