Introduction

Napoleon Bonaparte (August 15, 1769 to May 5, 1821) was a French general, first consul (1799–1804), and emperor of the French (1804–1814/15), one of the most celebrated personages in the history of the West. He revolutionized military organization and training; sponsored the Napoleonic Code, the prototype of later civil-law codes; reorganized education; and established the long-lived Concordat with the **papacy**.
