

# Stem Cell Research

B2-C1

Module 10

Here's What  
We Will Be  
Learning in this  
Presentation:

# Summary

- ❑ What is Stem cell Research?
- ❑ Advantages and Disadvantages.
- ❑ Exercises.

# Vocabulary

**Precursor:** a substance, cell, or cellular component from which another substance, cell, or cellular component is formed.

**Differentiation:** development from the one to the many, the simple to the complex, or the homogeneous to the heterogeneous.

**Regenerative:** renewal or restoration of a body, bodily part, or biological system (such as a forest) after injury or as a normal process.
