ALBERT LEARNING

What is Scenery?

Scenery is a word for how a place looks, especially a beautiful, outdoorsy place. Also, scenery is fake background in a play. A view or views of natural features, especially in open country. It can also be Backdrops, hangings, furnishings, and other accessories on a theater stage or on a film or television set that represent the location of a scene.

Types of Scenery

1. Natural / Nature Scenery: this deals with what was given to us by mother nature and not created by man.
2. Drawing Scenery: this is man made and is done or created by artistic minds. through their artistic minds they draw different Sceneries.
3. Wallpaper Scenery: these scenarios are those we find mostly in plays or theaters. they are mostly backdrops which are used to portray or paint a picture that the artist is trying to convey to his audience.
4. Landscapes Scenery:Scenery is the subject of a landscape image. Usually people or animals are not shown in a landscape photograph.
